

**National Coordinators Program (84.184K)
Fiscal Year 2002 Grant Recipients**

The following school districts have been awarded a three-year grant through the SDFS National Coordinators Program. The National Coordinator Program Initiative will support the recruiting, hiring and training of one or more full-time staff who will be responsible for developing, conducting, and analyzing assessments of drug and crime problems at their schools and administering the schools safe and drug-free grant program. Research suggests that the presence of a full-time coordinator will result in improved programming and, by extension, lead to improved program outcomes. A well-trained staff member who is familiar with the research on effective prevention programming and who uses the approach to implementation set out in the Principles of Effectiveness will be better able to make informed and appropriate choices in designing and implementing prevention programs to meet the needs of students in the schools they serve.
